Introducing the "Fashion Canvas" Feature

Fashion Canvas is a new feature for Myntra users where they can design their outfits expressing their opinions and desires. Users can either edit the existing outfits from Myntra's collection or design outfits from scratch.

Customize Outfits from Scratch or Use Myntra's Collection

Start Creating

Users can design outfits from scratch by choosing base clothing like t-shirts, skirts, hoodies, and more. They can then customize their creations using tools for colors, text, designs, and adjustments.

Myntra Collection

Users can choose items from Myntra's collection to combine and customize them into their own unique outfits. This provides a quick and easy way to get creative and discover new styles.

1 **Extensive Selection**

Users can create dresses that precisely match their style preferences by selecting from a wide range of base items, colors, and sizes, and adjusting fit details like sleeves and neckline.

2 **Design Tools**

The ability to add text, graphics, and patterns using advanced design tools allows for a truly personalized garment, reflecting individual creativity and taste.

3 **Improved Fit and Comfort**

These customization options ensure a better fit, enhancing comfort and confidence when wearing the dress.

4 **Smart Recommendations**

Recommends similar Myntra collections and dresses while users design their custom outfits, facilitating the creation of unique and creative designs.

Post Creations for Feedback or Enter Contests

| 1 | 2 | 3 | 4 |

Sharing

Once they've created an outfit, users can share it with others on Myntra. This allows them to get feedback on their designs and inspire others.

Contests

Myntra can also host monthly contests where users can submit their creations for a chance to win prizes.

Likes

The participant with the most likes each month will win a coupon from Myntra.

Market Validation

Potential sellers are motivated to create dresses based on large public interest votes, ensuring market relevance and customer satisfaction.

Strategic Advantages for Myntra and Designer Appeal

💬 **Building a Community**

Fosters a vibrant community of fashion enthusiasts and designers, driving continuous influx of fresh and innovative designs.

🧍 **Customer Engagement**

Enhances customer engagement through interactive design features, leading to higher brand loyalty and repeat purchases.
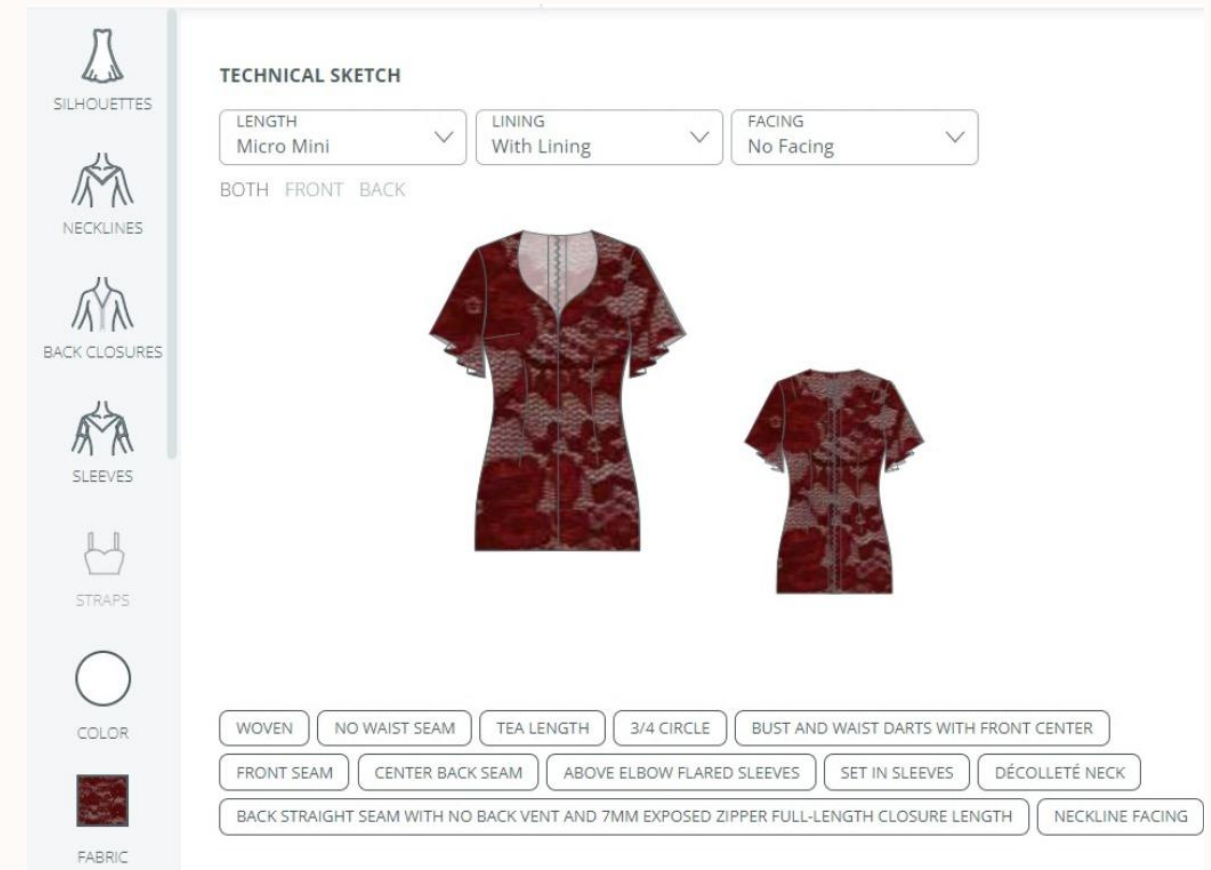

💡 **Data-Driven Insights**

Provides valuable data on customer preferences and trends, enabling informed business decisions and curated collections.

🖌️ **Attracting Independent Designers**

Serves as a platform for independent designers to showcase creativity and reach a large, engaged audience.

Conclusion

Emphasizing these features and benefits can position Myntra as a leader in customizable fashion, attracting both customers and designers. This approach not only enhances user satisfaction but also drives business growth by leveraging creativity and engagement.
